THE WORLD'S FIRST ADJUSTABLE, DYNAMIC DORSIFLEXION ASSIST BRACE FOR FOOT-DROP

L1970 CUSTOM-FABRICATED | L1971 PRE-FABRICATED

The HERMES AFO gives users freedom to **rapidly adjust the amount of dorsiflexion assist** from 0 to 100 in-lb of torque. Because of its hinged design, the Hermes gives the user full range of motion, while still providing support when needed. The **discreet design weighs approximately 11 oz**, easily slides into shoes, and can be worn under clothing.

HIGH-POWERED, ADJUSTABLE DORSIFLEXION ASSIST

- Generates up to 100 in-lb of torque
- Supports user dynamically during all phases of gait
- High mechanical-advantage dial to easily adjust and release tension

LIGHTWEIGHT, 3D-PRINTED FRAME

- Weighs less than 11 oz.
- Fits in standard footwear

CONFORMING, CONTOURED FIT

- Custom-fabricated with Icarus' scan to 3D print technology
- Conformable footplate optional

PATIENT TESTIMONIALS

"The brace gives me much more confidence. I don't feel as self-conscious; even though the brace is very visible, I feel my gait is more normal. I actually look forward to putting it on in the morning."

— Marsha C.

"I'm able to do everything I want to do for longer when I'm using the brace."

— Jack C.
