DYNAMIC DUAL ACTION KAFO

L2036 CUSTOM-FABRICATED

The Zeus KAFO is a next-generation brace that combines the dynamic knee support of the Hercules with the ankle control of the Hermes. It is the **first KAFO to offer dynamic, adjustable support for both the knee and ankle** in one lightweight, form-fitting device. The Zeus is 3D-printed for precision and comfort, and can be custom fabricated from a simple iPhone scan. Key features include multi-compartment knee unloading, a high-torque swing-assist hinge, and a sleek design engineered for daily wear and optimal mobility.

- High-powered, adjustable dorsiflexion assist
- Dial-adjustable knee extension assist
- Lightweight, conforming design (< 30oz)
- Modular: Use AFO and KO together or separately

ADJUSTABLE TENSIONING SYSTEM

- Engages stance assist when needed
- Unloads over 40 lbs. from the joint
- Optional MAXX Tension for up to 60 lbs. of unloading force
- High mechanical-advantage dial to easily adjust and release tension

HIGH-POWERED, LIGHTWEIGHT 3D-PRINTED FRAME

- Common sizes weigh under 30 oz.
- Extensively tested, high-durability frame and KO-AFO interface
- Custom fit to the wearers leg

ADVANCED SWING ASSIST HINGE

- Provides adjustable swing assist and significant support in the sagittal plane
- Extension stop compatible

RAPID AFO DETACHMENT

- Quickly detachable AFO allows KO and AFO to be used together or separately

HIGH-POWERED , ADJUSTABLE DORSIFLEXION ASSIST

- Generates up to 100 in-lb of torque
- Supports user dynamically during all phases of gait
- High mechanical-advantage dial to easily adjust and release tension

CONFORMING, CONTOURED FIT

- Custom-fabricated with Icarus' scan to 3D-print technology
